

2023-24 Chromebook Reimbursement Information Sheet

If your Chromebook is deliberately or accidentally damaged, lost, or stolen and not reported, you are responsible for the reasonable cost of repair or for its fair market value on the date of loss or damage (see Chromebook Acceptable Use Agreement).

Age of Chromebook	Various Models of Chromebooks
1 year or less	\$176-369
2 years	\$132-277
3 years	\$88-185
4 years	\$44-92
Damaged/Lost Charger Cable	Up to \$45 \$45
Replacement Cost of Protective Case	Up to \$20

Loss or theft of your Chromebook must be reported immediately to Milford Central School, and in no event later than the next school day after the occurrence. Additionally, you must complete a police report within 48 hours of the loss or theft and provide MCS with a copy of the report. MCS may disable the Chromebook remotely to protect the device and/or data on the device. If a Chromebook is stolen and you report the theft (by the next school day) and a police report is filed, you may not be charged for a replacement, provided the loss is not a “mysterious disappearance.”

Note: Deliberate damage may incur disciplinary action.

You may not be provided a replacement chromebook until payment is received.

You are provided access to computers during study hall and after school to complete assignments. Please visit the office for a late bus schedule.

Should you qualify for free or reduced lunch and this cost poses a financial hardship, you may inquire about your options by contacting Lorre Gregory, lgregory@milfordcentral.org.
